

Improving

Engagement Hope Well-Being *in our community*

Keynote speaker

Tim Hodges

Director of Research Gallup Education

Dr. Hodges will discuss what we can learn from the Gallup Student Poll and how we can use the results to help students succeed in school. He consults with school districts and higher education institutions and leads research projects in strengths development, employee selection, employee engagement, and well-being.

Join us to learn how United Way of East Central Iowa is working with local area school districts to improve Hope, Engagement, and Well-Being in the lives of students in our community.

Hope scores from the nationally recognized Gallup Student Poll have been shown to predict academic success in college better than high school GPA and the ACT/SAT (Source: Gallup).

This survey will be administered to students in the Cedar Rapids, College Community, Linn-Mar and Marion school districts this fall.

According to Gallup, Hope, Engagement and Well-Being are defined as:

Hope - the ideas and energy we have for the future.

Engagement - the involvement in and enthusiasm for school.

Well-Being - how we think about and experience our lives.

Together we can be part of ensuring a positive future for all students.
