

Registration is now open for the 2015 Prairie Boys Basketball Recreational League!

The main goal of the Prairie Recreational League is "to provide an economical introduction to the game of basketball and teach the fundamental basketball skills necessary for a lifetime of basketball enjoyment." A secondary goal is "to provide interested athletes a fundamental basis for competing in the Prairie Middle School Basketball Program."

The Prairie Recreational League takes place January through March and is intended for athletes in the 2nd through 6th grades interested in learning and developing the basic skills of basketball and playing against classmates in a non-competitive setting.

Teams are formed in December with practices starting in early January. Games are on Saturday's from January through March.

Games are intended to measure an athlete's individual skill improvement and not to create a competitive environment for the players. Equal playing time in games is a requirement of the Prairie Recreational League.

Cost is \$45/player. For additional information or to register for this year's Recreational League, please log onto our website:
