Session 1: Reading-Focused Options: (June 13-July 8)

- **Closing the Gap in Reading & Writing:** Join our intensive and focused program for students in need of a boost in reading and writing. The skills and strategies used by proficient readers and writers will be directly taught. Teachers are trained in the Orton-Gillingham method, a high quality instructional approach intended primarily for students who struggle with reading, spelling, and writing.
- **Reading & Writing Enrichment:** Ready to take your reading, writing and comprehension skills to the next level? We'll help you boost your critical thinking and creativity in language arts. This camp is appropriate for students who are average or above in these areas but want to stay engaged over the summer and have fun!

Session 2: Math-Focused Options: (July 11-August 5)

- **Math Basics:** Struggling with basic math computation? This class is designed to help close the gap to success with addition, subtraction, multiplication, and division using manipulatives to strengthen concepts. This camp is appropriate for students with remedial skills.
- **Math Enrichment:** Are you a math whiz who just can't get enough? Then this camp is for you! We'll determine your understanding of math and challenge you to keep growing during the summer break.
