

MINI MED CAMP 4-14-18

Mini-Med Camp is a camp for middle school girls. This camp allows girls to experience some different job options in the medical profession. They will learn this through presentations, discussions, and a series of hands-on activities from a variety of professionals. Some of these activities include a female nurse practitioner speaking about her daily life, a cardiologist and optometrist teaching the girls about the heart and eye with real visuals, as well as basic CPR training. Furthermore, a pharmacist will be coming in and talking about her job and allowing you to experiment with the different items that they use in the lab. Last but not least, we will provide you with your own personalized first aid kit. We were able to create the Mini-med camp with the help of Iowa Big. Our goal is that by attending this program, we can inspire you to fight for what you believe in. And to make you understand that you can be as successful as males. And to encourage you to keep doing what you love no matter what others opinions are. We hope you will come and support our program. It will be an experience that you will never forget.

Limited Space ... Only 40 girls are allowed to participate in this program. Don't miss out on this wonderful opportunity.

Please go to this website if you are interested in signing up for Mini Camp:

https://docs.google.com/forms/d/1xCWyUrRAD4J_AFBNAXVRv7N3vRHjUY2ZqZYDsMsQk3Q/edit

Mini Med Camp will also provide a light breakfast.

And parents are welcome and encouraged to stay for the introduction.
